

A-1 FENCE
Fence & Fence-ability

A1 DuraKnot

Backed By Solid Warranty

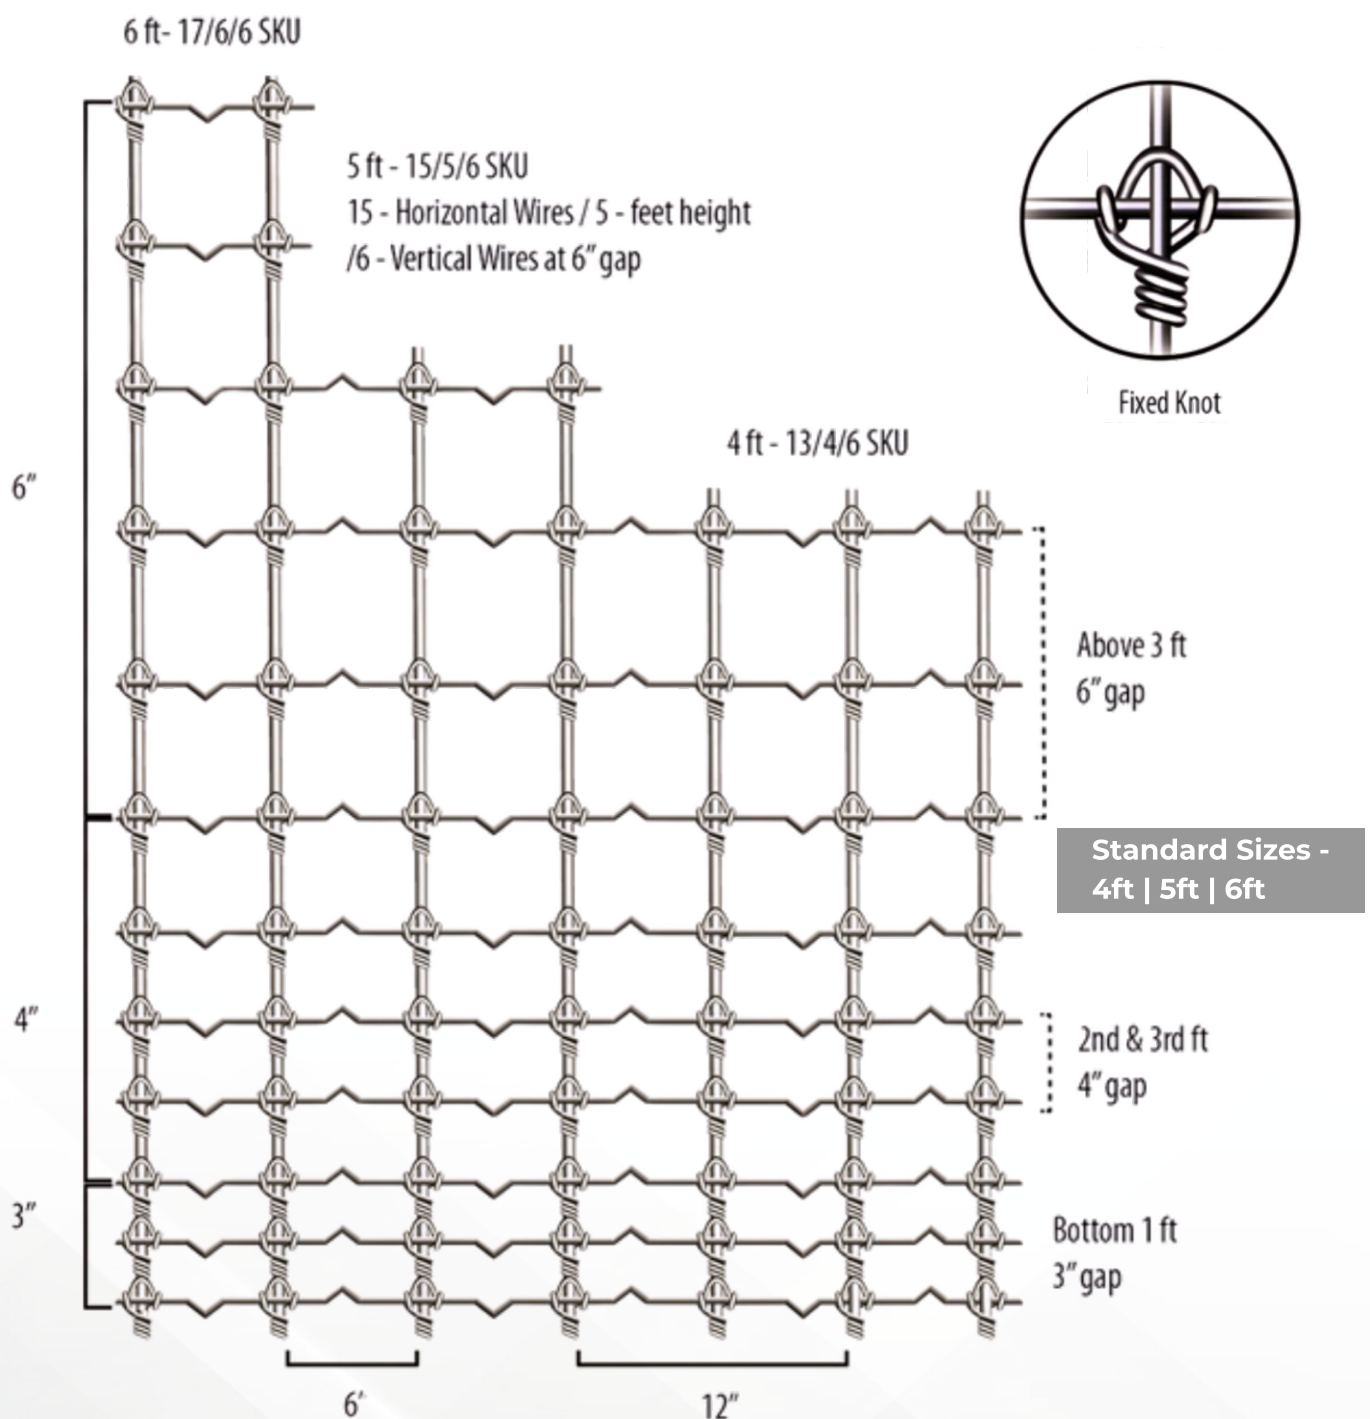

Engineered for Strength, Reliability and Cost-effectiveness
in Agriculture, Wildlife and Infrastructure

A1 DuraKnot

A1 DuraKnot is a high-performance fixed knot fencing solution designed for strength, durability, and cost-efficiency. Ideal for agriculture, wildlife protection, and infrastructure, it offers long-lasting, rust-resistant performance with easy installation and reduced maintenance. Built to withstand impact, A1 DuraKnot provides a reliable barrier for any environment.

Size & Specifications:

We offer multiple size & height configurations to suit your specific needs:

Galfan Coating

A1 DuraKnot uses a Galfan coating, a blend of 95% Zinc and 5% Aluminium, which provides exceptional rust resistance and corrosion protection.

High-Tensile Wire

A1 DuraKnot is made with high-tensile steel wire (1150–1300 Mpa), providing superior strength and resilience.

Fewer Posts Required

A1 DuraKnot's design allows posts to be spaced 5–6 meters apart, requiring 50% fewer posts compared to traditional chain-link fencing, which usually requires posts spaced at 2.5 meters.

Fixed Knot Design

A1 DuraKnot ensures that the wires remain securely in place and prevents slippage, offering a more stable and uniform structure than traditional fencing.

Easy Installation

A1 DuraKnot is designed for quick installation, with fewer posts, pre-tensioned wire, and a simplified system that requires less labor and equipment.

Animal-Proof & Secure

The fixed knot design, along with the high-tensile wire, makes A1 DuraKnot highly resistant to cutting, climbing, and sagging.

Made for Diverse Applications

A1 DuraKnot is engineered for a wide range of applications, including agriculture, wildlife protection, and infrastructure projects.

Cost-Effective Solution (Lower Total Cost of Ownership)

At 70% of the cost of imported solutions, A1 DuraKnot offers high durability and performance at a fraction of the price. Long lifespan and zero maintenance costs also lead to substantial savings over time.

Applications:

**Agricultural
Fencing**

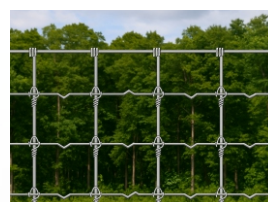

**Cattle
Containment**

**Infrastructure &
Highway Security**

**Solar & Wind Farm
Perimeters**

**Forest & Wildlife
Conservation**

About A1 Fence

Your Perimeter Security Experts for Over 25 Years

At A1 Fence, we don't just build fences; we engineer safeguarding solutions that redefine the very essence of security. For over two and a half decades, A1 Fence has set the gold standard in perimeter fencing. Our roots run deep, with a vision to revolutionize the fencing market through high-quality, groundbreaking solutions.

What sets us apart is our ability to provide complete security solutions. We've mastered the art of securing not just physical perimeters but also offering intelligent and active electronic security solutions that ensure easy detection and rapid response. A1 Fence stands at the forefront of the industry, blending traditional craftsmanship with cutting-edge technology.

A1 Fence isn't just a brand; it's a promise of safety. With 25 years of experience, we don't just do our work; we define it. We are A1 Fence, and we are your trusted partners in securing the future.
